# Only "Safe" products shall be placed on the market

---

"safe product" shall mean any product which, under **normal or reasonably foreseeable conditions of use** including duration and, where applicable, putting into service, installation and maintenance requirements, **does not present any risk or only the minimum risks compatible with the product's use**, considered to be acceptable and consistent with a **high level of protection** for the safety and health of persons, taking into account the following points in particular:

- i. the characteristics of the product, including its composition, packaging, instructions for assembly and, where applicable, for installation and maintenance;
- ii. the effect on other products, where it is reasonably foreseeable that it will be used with other products;
- iii. the presentation of the product, the labelling, any warnings and instructions for its use and disposal and any other indication or information regarding the product;
- iv. the categories of consumers at risk when using the product, in particular children and the elderly.

# Indications of a 'safe product'

## Essential Requirements

General Product Safety Directive

Radio  
Equipment  
Directive

EMC  
Directive

Low  
Voltage  
Directive

RoHS  
Directive

PPE

Cosmetics  
Product  
Regulation

Toy Safety  
Directive

Batteries  
Directive

## Harmonised Standards

Toy safety

e.g. EN71  
series

Cosmetics

EN ISO  
22716:2007
