

OUR KEY STATISTICS FOR ENGLAND

Our Key Policy Asks for England

1. A Government commitment to reducing the number of electrical house fires with targeted consumer campaigns
2. Mandatory electrical safety checks in the private and social rented sectors
3. Regulation of online sales of electrical goods to prevent recalled, counterfeit and substandard products being sold
4. The option of a free five-yearly electrical safety check for all households with a person aged over 75
5. Government to collect, review and publish product recall information so that consumers have a one-place trusted authority to consult
