

**KEYNOTE: Minister's address – UK transition to the future**

A look at what's going on in Government in terms of product safety - opportunities and challenges posed post UK exit from the EU.

**Regulators panel – Ask us anything**

The title says it all – we hand over to the audience to pick the brains of our expert panel!

**Inclusion in safe design and use**

Looking at inclusion from product design to foreseeable use and lifecycle.

Are the products being used designed to safely meet the needs of those who use them? Do connected products exclude certain groups or are they an opportunity to become more inclusive in product design?

A look at the importance and potential of inclusivity and diversity in product design.

**Sustainability readiness and conflict between repairability and safety**

Who is responsible/who is driving the change and how effective is legislation as a driving force.

How can we ensure safety whilst adopting initiatives that promote reuse and repair?

We will hear from those leading from the front about what they are doing and how to make reuse and repair a viable business proposition.

**Consumer appetite for connected products and behavioural impact**

How can safety keep up with the changing needs and demands in terms of flexibility and lifestyle fit of our creative products.
